CREATE A WRITEABLE, ERASABLE SURFACE WITH DRY ERASE COATING!

Introducing Dry Erase Coating from Sherwin-Williams — the latest innovation in dry erase technology! Dry Erase Coating's clear gloss finish allows you to turn any wall into a dry erase board without sacrificing the wall's original color. Unlike traditional white dry erase coatings, Dry Erase Coating is crystal clear and won't change the room's aesthetics.

Our ground-breaking technology makes heavy, clunky physical white boards a thing of the past. With professional application, Dry Erase Coating provides a long-lasting, durable clear finish for years of great performance.

And with Dry Erase Coating, there is no ghosting, shadowing, or difficulty removing marks made by dry erase markers — just wipe with a dry erase eraser or soft cloth for effortless removal!

**It's easy to see why
